1	Supply of Evaporative Low Energy Cooling Unit System for storage of vegetables/fruits:- (Capacity to cool 8MT) Evaporative Cooling Chamber :PCGI sheet fabricated chamber, size of the unit is 1500mm x 750mm x 1950mm. compartment is for cooling and evaporation process includes provision for water storage and circulation, two nos. of submersible pad pumps dipped in stored water and supplying	1				1.00	No.

	cold water to evaporative cooling cellulose pad celdek 100mm thick impregnated cellulose at 4c velocity of 1 to 3m/s to give efficiency from 60 to 95% and 101, 520 BTUs/Hrs. 7.56 Lpm per sqft. One 186 watts, 450mm air extraction fan at top for cold air transfer through duct to the storage room. Water chilling Chamber: PCGI sheet fabricated chamber for cooling system size of the unit is 1450mm x 700mm x 150mm, consists of 1 no. of 1.5 ton capacity compressor which chills water up to 6°C for more cooling effects. Chiller coil with motor and fan inside the base, copper tubes, and a 1/4 hp mono block pump, to suck water from PVC water tank of storage capacity 100L, connected with water level indicator to operate pump as per water required, hermetically protected compressor unit mounted in lower compartment fitted with 9" dia fan used for cooling refrigerant vapour and circulating cooled refrigerant back to copper tubes fitted in upper compartment for cooling circulating water. Canopy/Shed: Prefabricated canopy, size: 1530mm x 770mm made of light tubular frame structure of G.I pipe 1" and PCGI sheet is provided to protect it from rain and direct sun light. Base : Base made of M.S angle/pipe 1" x 1", height 4", one inside unit which is connected through ducts with 2 nos. of exhaust fan size 6" operated through remote. Control System: System controller includes auto controller for water level maintain for tank along with one temperature and humidity monitor and with one main on/off switch. Electrical Fitting: Minor electrical fitting items including electrical cables, socket, and switches plug etc. Duct: High energy insulated aluminum duct of 6" dia, up to max. 3mtr length for transferring cool air to the storage room for cooling of fruits/ vegetables etc.
